

Foss Manufacturing Co., LLC marked its second anniversary with an Employee Appreciation Day held on Sunday, August 12, 2007. Associates and their families arrived at the facility at noon looking forward to a fun filled afternoon of food, entertainment and great conversation with their co-workers. Unlike last year there was no need for umbrellas, as the sun was shining bright and the temperatures were well into the 90's. All attendees were welcomed with complimentary tote bags and water bottles – which many used to keep cool.

True North Events & Catering of Maine provided food and entertainment. Additionally, delicious pork skewers were provided and grilled up personally by the CEO, AJ Nassar and several members of Foss' managing partner, the Alinian Capital Group. They were the hit of the party.

Kids kept busy with classic Midway games, a rock climbing wall, face painting and many inflatable activities including a 40' slide in the shape of a pirate ship partially engulfed by an octopus. Even adults seeking shade were able to participate in several games of BINGO for a chance to win prizes.

Both the young and young-at-heart enjoyed the day. It was an opportunity to say thank you to all Foss associates for their dedicated service to the organization. See you next year!
